

AD105

\$58.00

LED and other VDC loads 5 Amps PWM Analog dimmer.

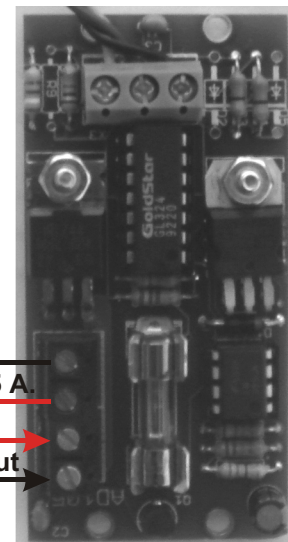

Dimmer for LED lighting and other Direct current applications such as RVs , sail boats,any lights operating from 6-24 VDC

Electric Specifications:

Input voltage range **6VDC to 24 VDC**
Output voltage equals input voltage
Maximum load current **5 Amps DC**
400 Hz Pulse Width Modulation (PWM)
Negative side switching
Dimming range :linear 0- 100%
Single scene ON / OFF switch.

Mechanical Specifications:

Brushed stainless steel face plate
Fits in a single gang wall box
Rotary potentiometer to adjust level
Toggle switch for Level and OFF

Switched negative side

➤ **Output Max 5 A.**

➤ **6-24 VDC input**
